MELISA FRANZEN UNDERSTANDS WHAT IT TAKES TO GROW A BUSINESS— AND OUR ECONOMY

Small business owner

As a small business owner who created good jobs, and as an attorney at a thriving Minnesota corporation, Melisa knows firsthand that policy and regulations can play an important role in driving or stifling economic growth—and she has the knowledge and experience to keep our economy moving in the right direction.

Investing in a strong economy

Melisa is working to strengthen our economy by increasing investment in our transportation system, our state infrastructure and our workforce. That way, every business, large and small, has the opportunity to succeed and create good jobs for Minnesotans.

Advocating for families

Melisa believes the best way to strengthen Minnesota is to support families; demanding transparency in healthcare costs, reducing the high cost of child care and providing sustainable funding for our education system from cradle to college.
